Inner width of 43 cm

- Delivery content
1 shelving unit containing: 14 tempered safety glass panes,
2 solid wood sides, 1 solid wood middle element, aluminum
rods, threaded rods, assembly material, assembly
instructions

- Material
The wooden side elements - made of one piece of solid
wood - and the aluminum rods form a stable frame, which
can easily be mounted to any wall with concealed fittings.
The frame holds 14 tempered safety glass panes and
thereby provides about 6m of space for your CD collection.
(6m = total of the glass panes overall length).
The wood's surface has been sanded finely and left
naturally. Thus, it may be finished with a colorful varnish or
a lacqueur.

- Usage
The CD shelving unit can be mounted easily to any kind of
wall. It is also suitable for the kitchen as a spice rack or as a
kitchen shelf or in the hallway as a shelf for gloves, hats,
shawls or similar.

- Capacity
The shelves have a storage capacity of ca. 600 standard
sized CD cases (jewel cases).

- Extras / Special
Concentrated on the essential elements - this cd shelving
unit captivates by unobtrusive presence in high quality
materials at a maximum capacity on small space. The
slender construction gains high stability through the frame
and the wall-mounting fittings. An extraordinary piece of
media furniture - exclusively available at
WOODandMORE.
