- Material
The wood: massive walnut or solid cherry tree. The expressive texture gives every wooden element its very own character. Stability and design into the last detail: the wall-mounting is realised through concealed fittings, which are fastened on the backside of the wooden elements. The assembly is easily performed - all necessary assembly material is included. Five high quality stainless steel clothing hooks are fastened to the wooden rack. All the essential fixings are concealed from view and leave clear view onto the clear, straight-cut design and the high-quality materials. The wood's surface has been sanded finely and treated with an ecological oil.

- Usage
As a clothing rack in the hallway or in the closet or as a towel bar in the bathroom as well as clothing hooks in the bedroom or inside the wardrobe.

- Extras / Special
High quality materials - both in the choice of species and in the selection of the hooks were set to proven, durable and high quality materials.
The wall attachment is realised by concealed fittings.
