- Material
The wooden side elements - made of one piece of solid wood - and the aluminum rods form a stable frame, which can easily be mounted to any wall with concealed fittings. The frame holds 5 tempered safety glass panes and thereby provides about 2.15m of space for you DVD collection. (2.15m = total of the glass panes overall length). The wood's surface has been sanded finely and left naturally.

- Usage
The DVD shelving unit can be mounted easily to any kind of wall. It is also suitable for the kitchen as a spice rack or as a kitchen shelf or in the hallway as a shelf for gloves, hats, shawls or similar.

- Capacity
The shelves have a storage capacity of ca. 100 standard sized DVD cases (single cases).

- Extras / Special
Concentrated on the essential elements - this DVD shelving unit captivates by unobtrusive presence in high quality materials at a maximum capacity on small space. The slender construction gains high stability through the frame and the wall-mounting fittings. An extraordinary piece of media furniture - exclusively available at WOODandMORE.
