- Material
DVD shelving unit / bookcase is made of massive timber square wood and aluminum tubes which form a stable wall mounted framework. Safety glass with a thickness of 0.8 cm is set into deep grooves. The wall mounting is realised by hidden fittings at the back of the squared wood. Another highlight of the QUADRA wall shelf are the adjustable furniture feet, which can compensate uneven floors. The wood's surface is finely sanded.

- Usage
The glass panes with a depth of 20 cm are specifically designed for DVDs and paperbacks. Therefore, this shelving unit is particularly suitable as a representative living room shelf for DVDs or books.

- Capacity
The DVD shelving unit may hold about 410 standard DVD cases (normal, single cases) and about 620 CDs (jewel case).
The individual glass shelves of the wooden shelf may be equally burdened with about 15kg permanently.

- Extras / Special
The specificity of the - reduced to the essentials - Quadra DVD shelving unit is the delicate, but extremely sturdy construction. The high quality materials - solid wood, aluminum and glass - are consciously set in contrast and can deploy the QUADRA shelf bookcase as a modern furniture with classic elements of its full effect.
