Price per item: 241.00 €  
(incl. VAT, excl. Shipping)

- Wood / Finish / Color  
cherry tree; glass satinated [+36.00EUR]

- Size  
W/H/D 85 x 94 x 30cm (edge of glass panes)  
Space between the glass panes: 34 cm  
Inside width of wood to wood 78 cm

- Delivery content  
1 shelving unit containing: 3 tempered safety glass panes, solid wood elements, adjustable furniture glides, aluminum tube, threaded rod, assembly material, assembly instructions

- Material  
The QUADRA shelving unit consists of solid square timber and aluminum tubes, which form a stable wall-mounted framework. The framework holds 3 large tempered safety glass panes with a thickness of 0.8cm. The wall-mounting is realized by concealed fittings. The shelf gains further stability through adjustable furniture glides, which allow the shelf to be fitted to uneven grounds.  
The wood's surface has been sanded finely and treated with an ecological oil.

- Usage  
The tempered safety glass panes with their 30cm depth are especially designed to store folders. Therefore the QUADRA shelving unit is perfectly suitable for your office area. Because of its low heights it is also fitting as a sideboard, under window sills, in the hallways or entrées and for rooms with lopsided ceilings. Naturally, besides folders you can also store books, vinyl records, clothes, boxes and lots more.

- Capacity  
Each glass pane can be burdened with 20kg evenly on a permanent base.

- Extras / Special  
Concentrated on the essential elements - the QUADRA shelving unit captivates by its unusually delicate but highly stable construction. The high-quality materials - solid square timber, aluminum and glass - are deliberately put into contrast. This contrast lets QUADRA impress as a modern piece of furniture with classical elements.

- Weight including packing material in kg
